and entertainment out of any of the VR short films for sale on Steam. The screenshots show everything there is to see/do in this game; throw a ball, feed it, put it to sleep. The animations and physics are not anything interesting. I think I've learned an important lesson about reviews on Steam based on my decision to buy this: don't trust positive reviews with less than an hour of play time endorsing a game. 1/10 - I asked for a refund after 10 minutes.
